

ANNUAL FALL CONFERENCE

TSTA 2013

NOVEMBER 7-9
MURFREESBORO

The conference location and hotel is the Embassy Suites Hotel at 1200 Conference Center Blvd., Murfreesboro, Tennessee 37129.

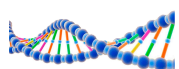

Additional related science organizations associated with the Fall conference:

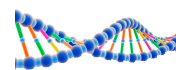

TnSELA: Tennessee Science Education Leadership Association

TEAMS: Tennessee Educators of Aquatic and Marine Sciences

TEST: Tennessee Earth Science Teachers

Engineering Effective Science with the Common Core

Join educators around the state for an exciting science conference featuring a nationally renowned key speaker! The conference begins on Thursday night with a reception and Exhibit Hall opening. Workshops begin early Friday morning and the conference ends on Saturday at noon.

Benefits

- *Science content and pedagogy workshops
- *Exhibitors sharing products and give-aways
- *Lots of books and materials in exhibit hall
- *Science educator networking

Proposals

Proposals are being sought that will increase participants' understanding and awareness of topics relating to content and pedagogical content knowledge, STEM, Common Core Standards for ELA and Math, and the Next Generation Science Standards. Visit the TSTA website for more information.

Exhibitors

It is not too early to plan for a booth at the TSTA annual conference. The Tennessee Science Teacher's Conference Committee invites you to become an exhibitor for 2013. Approximately 600 K-college educators, administrators, political leaders, and business leaders attend each year.

By the numbers...

Attendees	600
TSTA Members	500
Sessions	80
Exhibitors	30
Conference days	3

Nominations are being accepted for a "Distinguished Science Educator" to be recognized during the sit-down lunch at the annual conference. Categories include Elementary, Middle School, High School, and College level. Please visit the TSTA website for more information.

2013

TSTA is the largest representation of science educators in Tennessee. Established in 1975 as the Science Association of Tennessee, TSTA has continuously promoted the development and advancement of science education in Tennessee. All Officers, Board of Directors Representatives, and Liaisons are volunteers. All membership dues or contributions go to promoting science education in Tennessee.
